

MARIANO MARCOS STATE UNIVERSITY

MMSU's Partnership with Local Authorities for Sustainable Community Growth

Mariano Marcos State University (MMSU) works with local authorities to address planning issues and development, including ensuring that local residents are able to access affordable housing. Through a partnership with the Asian Institute of Technology (AIT) in Thailand, MMSU recently hosted a five-day workshop on geospatial data applications, equipping local government staff and institutions with GIS, remote sensing, and sustainability analysis skills.
