

MARIANO MARCOS STATE UNIVERSITY

13.3.4 Inform and support government

Year: 2023

MMSU plays a key role in informing and supporting local and regional governments in climate change disaster risk early warning and monitoring. In 2023, MMSU's commitment was evident through its partnership with the Climate Change Commission (CCC) to help develop climate-smart initiatives in Ilocos Norte, Philippines, positioning itself as a vital academic partner. Additionally, MMSU's support for the Ilocos Consortium for Industry, Energy, and Emerging Technology Research and Development (ICIEERD) programs and promotion of bio-ethanol production helps its active involvement in sustainable and proactive measures. These efforts reflect MMSU's dedication to fostering resilience and preparedness in the face of climate challenges.

Evidences:
