

MARIANO MARCOS STATE UNIVERSITY

SDG 9 | INDUSTRY, INNOVATION AND INFRASTRUCTURE

MMSU commits to implement strategies to improve infrastructure, promotes inclusive and sustainable industrialization, and fosters innovation to make its communities resilient and future-ready. Several campaigns for up-scaling innovation capacity of both students and beneficiaries were launched. Several key infrastructure were also finished, equipped with sustainable technologies. Drone technology workshops were conducted to master the technology, empowering them to lead innovations in various industries. Cutting edge equipment for black garlic value chain was also launched and agreements for future IT professionals were signed.
