

MARIANO MARCOS STATE UNIVERSITY

Healthy and Affordable Food Choices

Mariano Marcos State University (MMSU) continues to lead in food innovation and research, showcasing its projects through events like the MMSU Techno Showcase. The event featured various research-based products developed by the university, including the acclaimed "ToMango Juice." This healthy beverage, made from a blend of tomato and mango, was recognized as a finalist for the Most Innovative Product in the Philippines. It highlights MMSU's commitment to developing nutritious, locally-sourced food alternatives without preservatives.

The Techno Showcase also presented other innovative products, such as the Mango Choco Powder Mix and Mango-Kamangeg Sinigang Mix, which demonstrate MMSU's focus on enhancing food security and sustainability. These initiatives are not only aimed at promoting healthy food options but also at empowering local farmers by utilizing indigenous crops.
