

## MARIANO MARCOS STATE UNIVERSITY

### **Access Schemes for Persons with Disabilities (PWDs)**

Directly accessible and freely available access schemes are available for PWDs. There are offices in the University that accommodate the concerns of all students, including the PWDs. Some of the offices are: (1) Office of University Registrar for admission services, (2) Office of Student Affairs and Services for all holistic student programs (e.g. guidance and counselling) and (3) Human Resources Management Office for all employee-related services. These offices acknowledge the importance of giving the PWDs equal opportunities for all the services offered.

In 2023, the University conducts Guidance and Counseling Information Drive, Group Guidance Program and Mental Health Activities, “Kamustahan” Program and Career Guidance activities. The University organized a disability sensitivity training for teaching and non-teaching personnel of the university. It also launched an awareness campaign on its Equal Opportunity Policy (EOP) and Rules on Anti-Sexual Harassment (ASH).

In MMSU, it also created accessible facilities for people with disabilities that are essential to creating an inclusive environment that allows people with disabilities to participate fully in everyday life, especially when they are in school campus. MMSU, as higher learning institution, has made it a point to provide and install inclusive facilities that would cater to all students.

In addition, the Early Childhood and Special Needs Education Department (ECSNED) is one of the new departments of the MMSU-College of Teacher Education. It was established in 2018 along with the implementation of the 2017 Teacher Education Curriculum. One of the program offerings is the Bachelor of Special Needs Education (BSNED) which specializes in special needs education. It also prepares teachers who will instruct and manage students with additional needs in inclusive and segregated educational settings.
